Hello- Thumbs up to Staff on Bernal Safeway and gas station. I hope it works out as planned. Some of the research presented on the West Dublin Store might be under stated. Motorist using 680 & 580 jump off just for fuel. Personally, I try to avoid that logistic nightmare after 6 am, pump cop or not. (ambassador) Tanker truck deliveries really screw up the flow. At the Dublin site, 3 of 12 pumps are blocked as fuel is off loaded. So, that's my two cents, keep up the good work.

Don Otto

PS= People will spread the word, freeway signs or not. I am a neighbor of Safeway Hdqrs, so don't mention this to them. 🤔
