Re: 10X Genomics Project

The Northwest Information Center received your record search request for the project area referenced above, located on the Dublin USGS 7.5' quad(s). The following reflects the results of the records search for the project area and a one-half mile radius:

Resources within project area:	None
Resources within 1/2-mile radius:	P-01-011808
Reports within project area:	S-32780, S-47534
Reports within 1/2-mile radius:	S-00727, S-00898, S-00914, S-08892, S-10743, S-10762, S-10810, S-11161, S-12964, S-17993, S-19834, S-22501, S-26045, S-29567, S-32251, S-32338, S-35826, S-39304, S-40758, S-42292, S-48433, S-48567

- Resource Database Printout (list):**                     enclosed     not requested     nothing listed
- Resource Database Printout (details):**                     enclosed     not requested     nothing listed
- Resource Digital Database Records:**                     enclosed     not requested     nothing listed
- Report Database Printout (list):**                     enclosed     not requested     nothing listed
- Report Database Printout (details):**                     enclosed     not requested     nothing listed
- Report Digital Database Records:**                     enclosed     not requested     nothing listed
- Resource Record Copies:**                     enclosed     not requested     nothing listed
- Report Copies:**                     enclosed     not requested     nothing listed
- OHP Built Environment Resources Directory:**                     enclosed     not requested     nothing listed
- Archaeological Determinations of Eligibility:**                     enclosed     not requested     nothing listed
- CA Inventory of Historic Resources (1976):**                     enclosed     not requested     nothing listed
- Caltrans Bridge Survey:**                     enclosed     not requested     nothing listed
- Ethnographic Information:**                     enclosed     not requested     nothing listed
- Historical Literature:**                     enclosed     not requested     nothing listed
- Historical Maps:**                     enclosed     not requested     nothing listed

**Local Inventories:**

enclosed  not requested  nothing listed

**GLO and/or Rancho Plat Maps:**

enclosed  not requested  nothing listed

**Shipwreck Inventory:**

enclosed  not requested  nothing listed

Please forward a copy of any resulting reports from this project to the office as soon as possible. Due to the sensitive nature of archaeological site location data, we ask that you do not include resource location maps and resource location descriptions in your report if the report is for public distribution. If you have any questions regarding the results presented herein, please contact the office at the phone number listed above.

The provision of CHRIS Data via this records search response does not in any way constitute public disclosure of records otherwise exempt from disclosure under the California Public Records Act or any other law, including, but not limited to, records related to archeological site information maintained by or on behalf of, or in the possession of, the State of California, Department of Parks and Recreation, State Historic Preservation Officer, Office of Historic Preservation, or the State Historical Resources Commission.

Due to processing delays and other factors, not all of the historical resource reports and resource records that have been submitted to the Office of Historic Preservation are available via this records search. Additional information may be available through the federal, state, and local agencies that produced or paid for historical resource management work in the search area. Additionally, Native American tribes have historical resource information not in the CHRIS Inventory, and you should contact the California Native American Heritage Commission for information on local/regional tribal contacts.

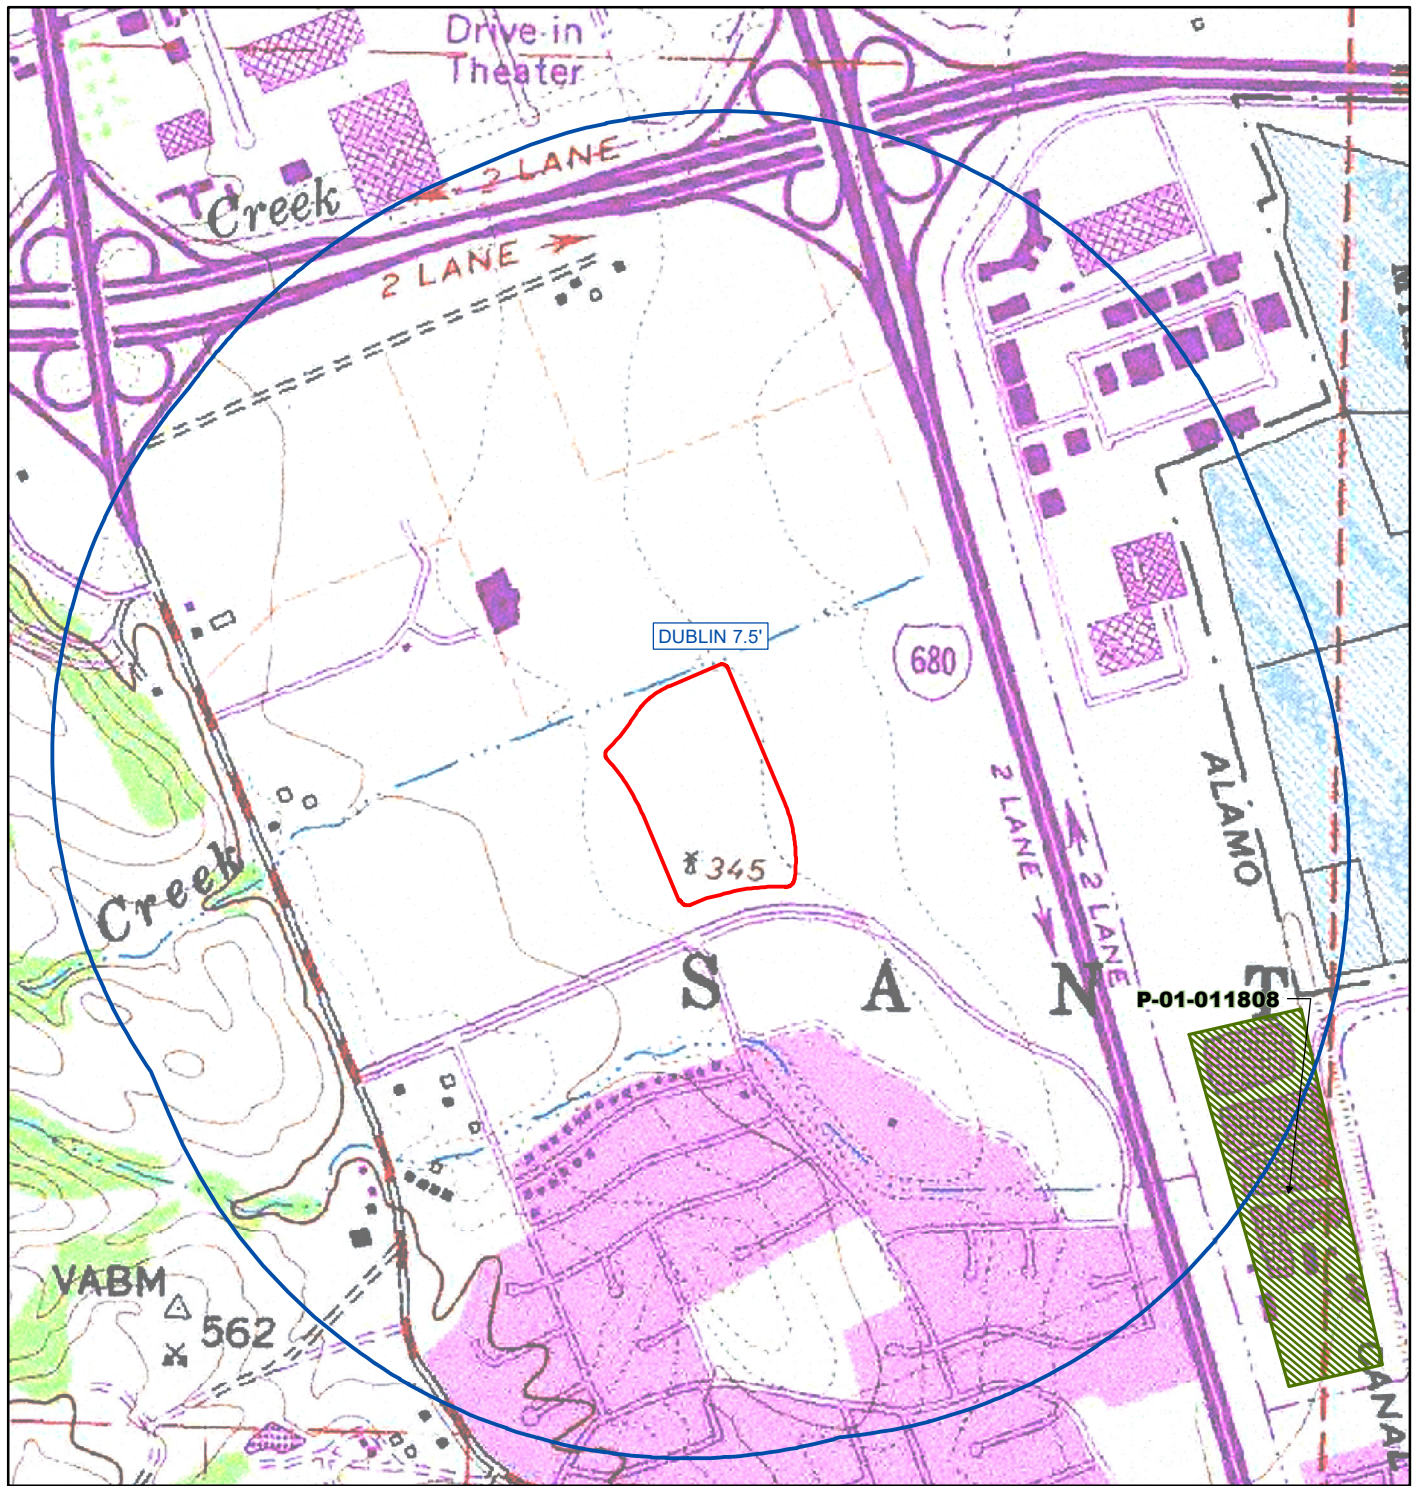

Should you require any additional information for the above referenced project, reference the record search number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Thank you for using the California Historical Resources Information System (CHRIS).

Sincerely,

Jessika Akmenkalns, Ph.D.  
Researcher

**Re: Native American Tribal Consultation, Pursuant to the Assembly Bill 52 (AB 52), Amendments to the California Environmental Quality Act (CEQA) (Chapter 532, Statutes of 2014), Public Resources Code Sections 5097.94 (m), 21073, 21074, 21080.3.1, 21080.3.2, 21082.3, 21083.09, 21084.2 and 21084.3, 10X Genomics Project, Alameda County**

To Dr. DePietro:

Pursuant to Public Resources Code section 21080.3.1 (c), attached is a consultation list of tribes that are traditionally and culturally affiliated with the geographic area of the above-listed project. Please note that the intent of the AB 52 amendments to CEQA is to avoid and/or mitigate impacts to tribal cultural resources, (Pub. Resources Code §21084.3 (a)) ("Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource.")

Public Resources Code sections 21080.3.1 and 21084.3(c) require CEQA lead agencies to consult with California Native American tribes that have requested notice from such agencies of proposed projects in the geographic area that are traditionally and culturally affiliated with the tribes on projects for which a Notice of Preparation or Notice of Negative Declaration or Mitigated Negative Declaration has been filed on or after July 1, 2015. Specifically, Public Resources Code section 21080.3.1 (d) provides:

*Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.*

The AB 52 amendments to CEQA law does not preclude initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction prior to receiving requests for notification of projects in the tribe's areas of traditional and cultural affiliation. The Native American Heritage Commission (NAHC) recommends, but does not require, early consultation as a best practice to ensure that lead agencies receive sufficient information about cultural resources in a project area to avoid damaging effects to tribal cultural resources.

The NAHC also recommends, but does not require that agencies should also include with their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential effect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:

CHAIRPERSON

- A listing of any and all known cultural resources that have already been recorded on or adjacent to the APE, such as known archaeological sites;
- Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
- Whether the records search indicates a low, moderate, or high probability that unrecorded cultural resources are located in the APE; and
- If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.

2. The results of any archaeological inventory survey that was conducted, including:

- Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code section 6254.10.

3. The result of any Sacred Lands File (SLF) check conducted through the Native American Heritage Commission was positive. Please contact the Muwekma Ohlone Indian Tribe of the SF Bay Area on the attached list for more information.

4. Any ethnographic studies conducted for any area including all or part of the APE; and

5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS are not exhaustive and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event that they do, having the information beforehand will help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: [Sarah.Fonseca@nahc.ac.gov](mailto:Sarah.Fonseca@nahc.ac.gov).

Sincerely,

Sarah Fonseca  
*Cultural Resources Analyst*

**Subject: Proposed 10X Genomics Project**

Dear Monica Arellano:

FirstCarbon Solutions (FCS) is preparing a constraints analysis for the proposed 10X Genomics Project on behalf of the City of Pleasanton. As part of the environmental review process, we are conducting a cultural analysis.

The project site is an approximately 14.75-acre site, identified as Assessor's Parcel Number (APN) 941-1201-026. The project site is located at 1701 Springdale Avenue, and is bound by Stoneridge Mall Road to the north, Stoneridge Drive to the south, Stoneridge Mall Road to the east, and Springdale Avenue to the west. The proposed project would demolish the existing buildings on-site and redevelop the site with a new 100,000-square-foot operations facility. Up to 281,000-square feet of additional research and development uses would be allowed as part of subsequent phases of development.

Enclosed is a Records Search map with a 0.5-mile buffer around the site for your reference.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File search and results were positive. In addition, FCS conducted a California Historical Resources Information System (CHRIS) search, which is ongoing and results are unknown at this time. FCS contacted the Native American Heritage Commission (NAHC), and they suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

**Subject: Proposed 10X Genomics Project**

Dear Chairperson Perez:

FirstCarbon Solutions (FCS) is preparing a constraints analysis for the proposed 10X Genomics Project on behalf of the City of Pleasanton. As part of the environmental review process, we are conducting a cultural analysis.

The project site is an approximately 14.75-acre site, identified as Assessor's Parcel Number (APN) 941-1201-026. The project site is located at 1701 Springdale Avenue, and is bound by Stoneridge Mall Road to the north, Stoneridge Drive to the south, Stoneridge Mall Road to the east, and Springdale Avenue to the west. The proposed project would demolish the existing buildings on-site and redevelop the site with a new 100,000-square-foot operations facility. Up to 281,000-square feet of additional research and development uses would be allowed as part of subsequent phases of development.

Enclosed is a Records Search map with a 0.5-mile buffer around the site for your reference.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File search and results were positive. In addition, FCS conducted a California Historical Resources Information System (CHRIS) search, which is ongoing and results are unknown at this time. FCS contacted the Native American Heritage Commission (NAHC), and they suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

**Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52 or Section 106 of the National Historic Preservation Act.** Designated lead agencies under CEQA and NEPA are handling project notification and consultation requirements. Please feel free to contact me at 925.357.2562 or via email at [ddepietro@fcs-intl.com](mailto:ddepietro@fcs-intl.com) and thank you for your valuable assistance.

Sincerely,
