

# SOUTH BANDSTAND SITE (ADJACENT CREEK) | 2022 PARK DESIGN ELEMENTS

## PROPOSED PROGRAMMING

- Integrated Bandstand**
  - Provide access to electricity and storage
  - Provide raised deck stage
  - Maximize audience viewing area

## Creek enhancements

- Renovate creek with meandering route, shallower banks, limited access, and appropriate planting
  - Anticipate water capacity needs
  - Increase habitat value
  - Integrate creek into park design
  - Expansion of riparian habitat and improved geomorphic stability are expected to have a net beneficial impact on Kottinger Creek, in both parks

## Connection to Firehouse Arts Center

- Enhance Neal Street as a gateway
- Provide overflow space for Saturday market vendors/visitors
- Consider safety around creek bed, especially at steep embankments

- Include mature/discovery play
