Report 1
cduperroir@behively.org

Describe the current status of your project (e.g. planning, pre-development, activity underway, marketing, etc.) and the current focus of any activity.

Report 1
We are in the planning and pre-development stage of this project. We plan to have meetings once a month over Zoom to lead science projects that are easy for children to explore and learn from. We plan to market to our Pleasanton families that have children ages 4-8 years old that we have come in contact with during a child care referral and/or community resource. The Hively Team is excited to also invite and outreach to the Child Care programs (100) and families receiving assistance to pay for child care (191) that have/serve children ages 4-8 years old in Pleasanton to attend these monthly.

We are utilizing the California's Foundations and Frameworks for Science to guide us in the age and stage developmentally appropriate curriculum for Pre-K (4 & 5 year olds). We are taking into consideration the following rating scales: Early Childhood Environment Rating Scale (ECERS) & School Age Environment Rating Scale (SACERS) to assist us with these upcoming activities. The purpose of these rating scales is to help define quality environments and activities for children between the ages of 4-8 years old.

Describe any significant actions taken during the reporting period.

Report 1

We have identified a curriculum, our target audience and the methods of outreach. Due to the fact that a lot of parents and/or guardians have returned to work and are unable to participate in these meetings, we have decided to outreach to our child care providers in Pleasanton who serve children 4-8 years old. We plan to have our meetings in the later afternoon, when school age children are present in the child care. Understanding that children are back to school and parents/guardians back to work, we plan to offer the opportunity for family participation during spring break.

If applicable, describe any modifications to the project goals, timelines, etc., and reason(s) for change. If you have not submitted invoices due to project delays, please provide details here.

Describe the current status of your project (e.g. planning, pre-development, activity underway, marketing, etc.) and the current focus of any activity.

Report 1

For the Pleasanton Unified School District Healthy Relationship High School Curriculum, Tri-Valley Haven has created an effective, interactive healthy relationship training. Tri-Valley Haven has updated the class sessions to make them more pragmatic and relevant to Pleasanton teens. Tri-Valley Haven (TVH) utilizes up-to-date materials from the "In Touch with Teens" Curriculum, "Engaging Bystanders" (nsvrc.org), and "Bystander-Focused Prevention" (New York Department of Public Health). TVH created a Healthy Relationship and Teen Anti-Dating Violence curriculum tailored for each school community. In the Pleasanton high schools, Tri Valley Haven provides helpful presentations focusing on healthy relationships, raising awareness and changing behavior. All materials are age appropriate.

Tri-Valley Haven Preventionist provide healthy relationship classes, including bystander education when it is convenient for the high school teachers, administrators and students. Currently, we have classes scheduled for both Amador and Foothill High School in December 2022 and May 2023.

Describe any significant actions taken during the reporting period.

Report 1

Tri-Valley Haven schedules prevention presentations when it is convenient for the teachers and students and when it will fit into the school's curriculum. TVH collaborates with the teachers and counselors at Pleasanton high schools. As part of the presentation process, Pleasanton students take a post survey to make sure they have learned strategies of when and how to effectively and safely intervene in situations that are escalating and may become abusive. The post surveys are also used to assess the students' level of retention and their willingness to implement the strategies. All feedback is collected and utilized as an assessment tool for quality assurance.

The Haven also provides students with additional take home resource materials to help ensure the education and conversation can continue with their parents. In collaboration with the teachers, the students are provided consistent messages regarding abuse prevention and creating healthy relationships.

If applicable, describe any modifications to the project goals, timelines, etc., and reason(s) for change. If you have not submitted invoices due to project delays, please provide details here.
