27. East Pleasanton Specific Plan | Other

East Pleasanton Specific Plan

The East Pleasanton Specific Plan (EPSP) will provide a comprehensive long-range land use plan for an approximately 1,100-acre area on the east side of the city, extending into unincorporated Alameda County. The Pleasanton General Plan indicates that a specific plan should be prepared for this area; a planning process was originally initiated in 2012 under the guidance of a task force but was “paused” in 2015. In 2019 the City Council identified the East Pleasanton Specific Plan as a work plan priority, and in March 2020,

provided direction to proceed with the planning effort, and that the City Council, Planning Commission, and City staff initiate a “clean slate” approach to the planning for East Pleasanton, which would consider multiple land use options for the entire area through the public process. Additional direction was provided that the Planning Commission and City staff initiate a concurrent and separate pre-housing element process to establish a draft inventory of citywide sites to meet projected Regional Housing Needs Allocations (RHNA) in advance of the formal housing element process – this process will be separately scoped, but will be designed to dovetail with the EPSP process.

- Status Under Review
- Next Steps/Details: The project will commence in 2025.

28. Objective Design Standards

Other

Objective Design Standards

In 2017, the California Legislature passed a package of 15 laws related to housing, referred to as the “housing package.” The housing package included a number of changes to state law intended to streamline and increase housing production. A further series of housing-related legislation was passed by the legislature in 2019, including SB 330, the Housing Crisis Act. The streamlining provisions of SB 330 and other laws include measures to make approval processes more routine and predictable for developers, including limitations on discretionary review processes and placing an increased emphasis on objective design and development standards as the primary criteria that may be used as the basis for project approval or denial. With these new criteria in place, and expecting the emphasis on objective standards to continue in future legislation, it is in the City’s interest to have a robust body of residential design and development standards in place, to ensure those projects deliver high-quality design, appropriate site planning and amenities, and are compatible with surrounding neighborhoods and the community. Accordingly, the City will be updating the Housing Site Development Standards and Design Guidelines first adopted by City Council in August 2012 and establishing objective standards for other types of residential development, including smaller multi-family infill projects. Additional information can be found on the project website:

https://www.cityofpleasantonca.gov/gov/depts/cd/planning/objective_design_standards.asp

- Status Approved
- Next Steps/Details: The City adopted Objective Design Standards for Housing Element sites and the R-M, M-U, and C-C zoning districts on January 23, 2023. Modifications to the ODS for Housing Sites were approved by City Council on May 2, 2023. The adopted ODS is available [here](#).
- Applicant: City of Pleasanton

29. **Housing Element Update**

Other

Housing Element Update

The Housing Element is part of the City’s General Plan and is a comprehensive statement by the community of its current and future housing needs and proposed actions to facilitate the provision of housing to meet those needs at all income levels. Preparation and periodic update of the housing element is required by state law; and thus, the element reflects the state’s housing goal of "attaining decent housing and a suitable living environment for every California family," as well as a reflection of the unique concerns of the community. State law establishes a series of very specific requirements as to the scope, content, and process by which a housing element is updated and adopted, including review and approval (known as certification) by the State Department of Housing and Community Development (HCD) by January 2023.

- Status: Approved
- Next Steps/Details: The City’s Housing Element has been adopted by City Council and certified by the State of California. The City will be implementing the Housing Element in the upcoming months.
- Applicant: City of Pleasanton
- Staff Contact(s): [Shweta Bonn](#)

30. **Stoneridge Mall Framework**

Other

Stoneridge Mall Framework

The City has begun the process to develop a Framework Plan for the Stoneridge Shopping Center, also known as the Stoneridge Mall. The focus of the Framework is the mall properties that lie within the area bounded by Stoneridge Mall Road and contain the Mall buildings and surrounding parking lots. The Framework Plan will provide policy guidance and a conceptual land use plan for future development and potential redevelopment of Stoneridge Mall.

Visit the project website at: <https://www.stoneridgemallframework.com/> to sign up for email updates and to obtain additional information.

- Status: Approved
- Next Steps/Details: The City adopted Stoneridge Mall Framework Components on January 26, 2023. Next steps, when available, will be identified on the project website; sign up for periodic emails to receive notifications about the project: <https://www.stoneridgemallframework.com/>

TRANSPORTATION PROJECTS

31. Bicycle and Pedestrian Master Plan High Priority Corridor

Transportation/Traffic Project

The Pedestrian and Bicycle Master Plan, created in January 2010 was updated and adopted by City Council in June 2017. The update created an “All users and abilities” approach to facility design and provided a corridor construction priority. West Las Positas Boulevard was identified as the highest priority corridor and design is underway to develop bicycle and pedestrian improvements along the corridor.

- Status: Under Review
- Next Steps/Details: The City has combined the West Las Positas roadway reconstruction project with the West Las Positas Bicycle and Pedestrian Improvement Project. This combination of projects allows for the relocation of the curb and gutter and the Bicycle and Pedestrian improvement design has changed to an elevated cycle track along both the north and south sides of West Las Positas. This was the preferred design, but not originally selected by the Pedestrian, Bicycle and Trails Committee due to the high construction cost. With the need to reconstruct the curb and gutter as part of the roadway reconstruction, the overall cost to the pedestrian and bicycle project is reduced making this design alternative feasible. Preliminary design is underway with anticipated completion in 18 months (spring of 2024), with construction to follow in the summer of 2024. A pilot phase project will be installed using paint and plastic to create protected bicycle lanes between Hopyard Road and Hacienda Drive.

TRAFFIC OPERATIONS

32. Sunol Boulevard Interchange

Transportation/Traffic Project

The Sunol Boulevard Interchange is in the Caltrans Right of Way, but any improvements to local interchanges are funded by the local agency. The City issued a request for proposals in late 2017 to design a set of signalized intersections at the two ramp locations. The Project Study Report- Project Development Study (PSR-PDS) document has been officially signed off by Caltrans on January 17, 2020. The PSR-PDS is the initial document required for the Caltrans project development process.

- Status Under Construction
- Next Steps/Details: This project will construct 2 traffic signal on Sunol Boulevard, reconstruct the westbound to southbound loop ramp including the bridge section and extend the freeway merge section by 1000 feet to allow for smoother transition onto the freeway mainline. City Council approved a contract amendment in June of 2020 with AECOM to complete the next step of the Caltrans project development phase, Preliminary Analysis & Environmental Document (PA&ED). This phase will require more in depth analysis of traffic impacts and environmental impact due to project improvement alternatives. This phase of the process is anticipated to take 1 year to complete (completion in July 2021). Caltrans has requested an additional "Safety Analysis" which has added 6 months to the project. Draft Environmental Document and Project report are being reviewed by Caltrans. The draft environmental document was publicly circulated in Spring 2023. It is anticipated that the PA&ED will be approved by Caltrans in September 2023. Upon acceptance, the PS&E phase will begin, which is anticipated to last 16 months.

33. **Valley Ave at Northway Rd | Transportation/Traffic Project**
Traffic Signal Installation

This project will install a new traffic signal at the intersection of Valley Ave and Northway Rd, next to Harvest Park Middle School. Curb extensions will be added to the southeast and southwest corners to reduce crosswalk lengths. This location is the next intersection in the signal priority list. The overall work will improve pedestrian/bicycle safety and improve traffic operations.

- Status Under Review
- Next Steps/Details: The project was advertised in February 2024 and bids were open on February 21, 2024. Staff is scheduled to award the construction contract on April 16, 2024.

TRAFFIC CALMING

34. **FY 22-23 Traffic Calming | Transportation/Traffic Project**

Staff has completed speed lump installation on Paseo Santa Cruz between Valley and Calle Altamira and on Sycamore Creek Way between Sycamore Creek and Hidden Creek.

- Status Under Review
- Next Steps/Details: Final speed lump on Touriga was installed in November 2023.
- Applicant: City of Pleasanton
- Staff Contact(s): [Cedric Novarino](#)

35. **FY 23-24 Traffic Calming** | **Transportation/Traffic Project**

Staff has begun collecting traffic calming data for FY23-24. Currently, there are 11 streets requesting for traffic calming, primarily speed lumps. These streets are: Madeira Drive, Muirwood Drive, Valley Trails Drive, West Las Positas, E. Angela, Mohr Ave, Via De Los Cerros, Calle Altamira, Rose Ave, Arlington Way.

- Status Under Review
- Next Steps/Details: Speed lump petitions have been provided to residents on E. Angela, Springdale, and Kottinger.
- Applicant: City of Pleasanton

36. **Junipero Street and Independence Drive** | **Transportation/Traffic Project**

In November 2015, City Council directed staff to meet with the residents of Junipero Street and Independence Drive to discuss potential solutions to their traffic-related concerns. Staff began meeting with the neighborhood in March 2016.

Staff and the steering committee met through the summer of 2016 and developed a traffic calming plan which included traffic signal metering, radar speed signs, new crosswalks, speed reduction on Independence Drive, six speed lumps and a major modification to the arterial intersection of Bernal Avenue at Sunol Boulevard/ First Street. The plan was presented to City Council in September 2017 and construction was completed in the winter of 2017 with the exception of the arterial intersection improvements. The arterial intersection design is underway (March of 2018) and design completion is expected in the spring of 2020. Prior to the completion of the design, alternatives will be presented to the surrounding neighborhoods and the Pleasanton Unified School District to receive feedback (Winter 2019).

- Status Under Review
- Next Steps/Details: Installation of all of the traffic calming devices within the Junipero and Independence neighborhood have been completed. The design of the second left turn lane at the intersection of Bernal Avenue and First Street / Sunol Boulevard began in spring 2018. This project expanded to include entry features, upgrade to the mixed use path on Sunol Boulevard, resurfacing of Sunol Boulevard and alteration of all 4 legs of the intersection to provide a protected intersection for bicycles. 100% plans have been received and anticipated construction was for fall 2022. The project is delayed until summer 2024 awaiting PGE relocation of several utility vaults.

REGIONAL PROJECTS

37. State Route 84

Transportation/Traffic Project SR 84

SR 84 from Pigeon Pass to I-680 has completed environmental review and Caltrans adopted the environmental document in the summer of 2018. Preliminary engineering and design has started. The design process and right of way acquisition will take approximately two years with construction to follow in 2021.

Construction of the segment of SR 84 from Pigeon Pass to I-680 will be the final segment in a series of improvements to widen SR 84 to expressway standards from I-580 in Livermore to I-680 in Sunol. Environmental review of the SR 84 project began in 2002, and completion of this final segment will conclude this nearly 20-year project.

- Status: Under Construction
- Next Steps/Details: The segment of SR 84 from Pigeon Pass to I-680 has completed environmental review and Caltrans adopted the environmental document in 2018. Preliminary engineering and design is complete and construction began in April 2021. Construction of the segment of SR 84 from Pigeon Pass to I-680 will be the final segment in a series of improvements to widen SR 84 to expressway standards from I-580 in Livermore to I-680 in Sunol. Alameda CTC envisions construction completion in March/April 2024.

38. Valley Link

Transportation/Traffic Project Valley Link

In October 2017 the Governor signed Assembly Bill 758 which created The Tri-Valley – San Joaquin Valley Regional Rail Authority. This new authority has been created for the sole purpose of connecting Bart to ACE. The Authority has selected a hybrid powered, multiple-unit vehicle technology with the ability to convert to fully electric power in the future

Valley Link is proposing to provide a new rail service from the existing Dublin / Pleasanton BART Station to San Joaquin County, utilizing existing rights-of-way in the center of the I-580 corridor to provide connectivity between ACE and Bart. Valley Link is proposed to provide frequent, all-day regional rail service with future expansion all the way to Lathrop in the Central Valley

As a first phase in the Valley Link project, the Authority has recommended an initial segment serving the RM3 project corridor, originating from a BART connection at Dublin/Pleasanton Station and continuing to a proposed station at Greenville Road in

Livermore, in the I-580 median, including a proposed station at Isabel Road

The Bill also transfers all unencumbered local funds allocated to the BART extension from Bart to the Authority. This is 588 million of the anticipated 1.8 billion needed to construct the ultimate system.

- Status Under Review
- Next Steps/Details: Final EIR and Preferred Alternative adopted in May of 2021. NEPA process and 30% design began in November of 2021 with anticipated completion November of 2023. Construction to begin after sufficient funding is awarded rough estimate for start of construction is 2027/28.

39. **680 Express Lane Projects** | **Transportation/Traffic Project**
680 express lanes

The 680 Express Lane is two separate projects. One will construct a new 15-mile express lane from SR 237 in Milpitas to SR 84 in Sunol. The second will extend the express lane from SR 84 to Alcosta.

- Status Approved
- Next Steps/Details: I-680 Express Lane between SR 237 to Milpitas
The southbound direction was completed in 2010. The first phase of the northbound project will construct the nine-mile section from Auto Mall Parkway in Fremont to SR 84. The Construction was awarded in November 2017 and construction began in the summer of 2018 and should be completed in 2020. There is no current timeline for Phase 2 of the project.
I-680 Express Lane between SR4 and Alcosta Blvd:
Draft Environmental Release for public review – March 2020
Project Report and Final Environmental Document Approval – August 2020
Final Design and ROW completed - Fall 2021
Construction scheduled to begin Spring 2022 through Summer 2025.
Project Cost : Total cost estimate to implement express lanes for both NB and SB directions is \$480M. In the light of limited available & anticipated funding and to address near term traffic needs, a decision has been made to proceed with the design, right of way and construction work for the SB direction as the phase 1 of this project. The estimated cost for the SB direction is around \$252M. Caltrans has a project in works to pave the existing pavement within approximately the same limits as the

express lane. Caltrans has agreed to split their rehab project into NB and SB directions. They plan to move forward with the NB rehab as a stand-alone project which would go to construction in spring 2021. Their SB rehab will be combined with the SB express lane project and will begin construction in Spring 2022.

schedule for the combined SB rehab and express lane project:

- Design and ROW start – Jan 2020
- Design and ROW completion – October 2021
- CTC allocation of SHOPP and other state funds – Dec 2021
- Construction contract advertisement – January 2022
- Construction start – April 2022
- Construction completion – Summer 2025
